## Special text

A formula goes wrapped by dollar symbols:  $e^{2\pi} = 200$  If you want that formula to be in its own line, use doble dollar symbols

$$\frac{numerator}{denominator}$$

**subsection!!**

**subsubsection!!!**

## 1 Lists

To create a list, start a enumerate section

1. first
2. second
3. now the third one!
4. new text **now in bold**
5. now in *italics*
6. now in underline

You can also make a list with dots!

- first

- second
- now the third one!

## 2 Special text

To put special characters in the file, use a scape characters & % \$ # \_  
 To add comments, use the percentage symbol

## 3 Tables

To create table, create a table section, add a label and a caption (description).  
 use the comand hline as a scape character for horizontal lines Then, use an  
 ampersand & to jump to the next column And two slashes to finish the row

Table 1: <b>table 1</b>	
column 1	column 2
France	10
South Korea	9
Switzerland	6
United Kingdom	5
Taiwan	5
Netherlands	5
Germany	5
China	4
United States	3
United Arab Emirates	3

## 4 References

To reference articles, check the References.bib file. Here we just call each  
 reference by the label we gave them I reference the first the first article [1]

In order to merge all of our different documents together, we just include  
 them!

## 5 Bibliography

The following commands will create our bibliography for us

### References
